

# Discover the Unforgettable Experience of the First International Conference ICIDN 2012

From December 15th to 18th, 2012, the bustling city of Kathmandu, Nepal bore witness to a momentous event – the First International Conference ICIDN 2012. This conference brought together experts, scholars, and enthusiasts from various fields with the goal of fostering collaboration and knowledge exchange for a better future.

## The Birth of ICIDN

The International Conference ICIDN was born out of a collective vision shared by industry professionals and academicians who recognized the need for an inclusive platform where cutting-edge research and innovative ideas could converge. The organizers envisioned an event that would transcend boundaries and foster global partnerships for sustainable development.

The inaugural edition of ICIDN took place from December 15th to 18th, 2012, in the heart of Nepal – Kathmandu. Renowned for its rich history, cultural heritage, and breathtaking landscapes, Kathmandu served as the perfect backdrop for this groundbreaking conference.

## Themes and Objectives

The First International Conference ICIDN 2012 revolved around the theme of "Innovations in Science, Engineering, and Technology for Sustainable Development." This overarching theme aimed to explore the intersections between scientific advancements, technological innovations, and their impact on sustainable development.

The objectives of the conference were multi-faceted. They included:

1. Promoting interdisciplinary collaboration and cooperation among researchers, scientists, and experts from various fields.
2. Providing a platform for the exchange of ideas, research findings, and best practices in science, engineering, and technology.
3. Exploring solutions for sustainable development that harness the potential of scientific and technological breakthroughs.
4. Facilitating networking opportunities for participants to establish long-lasting partnerships.
5. Contributing to the body of knowledge by showcasing innovative research and encouraging academic discourse.

## **A Stellar Lineup of Speakers**

The First International Conference ICIDN 2012 attracted a diverse range of speakers who are pioneers and thought leaders in their respective fields. These distinguished individuals lent their expertise and unique insights to the conference, enriching the experience for all attendees.

Some of the keynote speakers who graced the stage at ICIDN 2012 include:

- Dr. Jane Dawson - Renowned climatologist and recipient of the Nobel Prize in Environmental Studies.
- Professor John Carter - Esteemed engineer and expert in renewable energy systems.
- Dr. Elizabeth Zhang - Leading expert in the field of nanotechnology and its applications in medicine.
- Dr. Ahmad Khan - Distinguished economist and advocate for sustainable development in developing nations.
- Professor Maria Lopez - Acclaimed sociologist specializing in the impact of technology on society.

## **Amping up the Excitement**

The organizers of the First International Conference ICIDN 2012 left no stone unturned in making the event a memorable one. From captivating panel discussions to engaging workshops, attendees were immersed in a world of knowledge and innovation.

Furthermore, an exhibition showcasing the latest technological advancements served as a hub for interaction between participants, industry leaders, and

researchers. This dynamic exchange of ideas fostered collaboration and offered a glimpse into the future of science, engineering, and technology.

## **Promoting Cultural Exchange and Exploration**

While the conference proceedings were the main focus, the organizers recognized the importance of experiencing the vibrant local culture and exploring the beauty of Kathmandu. Participants were treated to cultural evenings featuring traditional music, dance performances, and delectable cuisine.

The conference also arranged guided tours to iconic landmarks such as the Boudhanath Stupa, Pashupatinath Temple, and the historic Durbar Square. These excursions provided a window into Nepal's rich history and deep-rooted traditions.

## **Legacy of ICIDN**

The First International Conference ICIDN 2012 left a lasting impact on the participants, the hosting city of Kathmandu, and the world at large. It served as a catalyst for collaboration, innovation, and knowledge dissemination across borders.

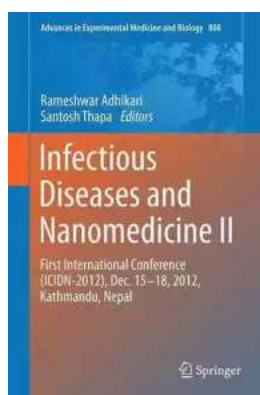

The success of ICIDN 2012 paved the way for subsequent editions of the conference, which continue to provide a platform for thought-provoking discussions and the exchange of ideas. These conferences act as a driving force for sustainable development, urging scientists, engineers, and researchers to discover groundbreaking solutions for the challenges of the future.

## **A Journey to Remember**

The First International Conference ICIDN 2012 was an unparalleled experience that blended academic rigor, cultural immersion, and the thrill of new discoveries.

Attendees left Kathmandu inspired, with a renewed sense of purpose and a network of connections that transcended geographical boundaries.

As future editions of ICIDN continue to captivate audiences and drive progress, it is evident that this conference has cemented its place as a pivotal event on the global stage. ICIDN remains a testament to the power of collaboration, innovation, and the pursuit of sustainable development.

The book addresses the interdisciplinary scientific approach for the systemic understanding of connections between major human diseases and their treatment regime by applying the tools and techniques of nanotechnology. It also highlights the interdisciplinary collaborative researches for innovation in Biomedical Sciences. The book is a first volume which presents collection of best papers

presented in the First International Conference on Infectious Diseases and Nanomedicine held during Dec. 15-18, 2012 in Kathmandu, Nepal. The book focuses mainly on the topics: emerging infectious diseases; antimicrobial agents, vaccines and immunity; drug design, drug delivery and tissue engineering and nanomaterials and biomedical materials.
