Nothing makes author Peg Gould smile like seeing Duke, her iron hulk of a dog, bound into the enclosed fields of the dog park near home with true hound-dog swagger, tail held high and wagging wildly. His velvety black hair and droopy jowls often are noticed and appreciated by onlookers as though they were sighting Elvis himself.

Hound Dog Blues follows much of her reflection about life and death after she learns Duke has a terminal disease. Over the next weeks and months in trying to

serve Dukes needs for exercise, rest, stimulation, and purpose, but also for effective anxiety and pain managementthe author is reminded of the early death of her mother from heart disease decades before.

Ultimately, she is persuaded that our pets, with their shorter life spans, show us the way and have much to teach us about love, acceptance, and graceful loss. This is especially so if you are willing to uncover the depth of an animals anchoring role in your lifeand mourn the passing of a true companion.
