Skiing holidays don't allow much time for learning about the places we visit. We scramble off a plane or a train and into a chalet, an apartment or a hotel. We rush to collect our skis and our ski passes. Assuming the weather is OK, we scramble to make the first lift, and try to maximise the time we have on the slopes. All our attention is on how to ski better, and how to ski more.

But the places we go to ski are fascinating places in their own right. They have complex histories and wonderful people. This little book will put you on the road to discovering some of this.

It is mostly about context. It is not a comprehensive travel guide. It won't tell you where to stay, or where to eat and drink. It won't tell you in detail where to ski, either, although it will provide some broad suggestions, and some tips on, for

example, the best places to picnic (including the indoor picnic venues).

This book is a personal project, covering an area we love, and dictated solely by our own whims and fancies. We hope it will tickle yours.
