

Get Ready for the Most Exciting Event of the Year: The 23rd International Symposium ISMIS 2017 in Warsaw, Poland!

Are you a tech enthusiast keen on staying ahead of the game? Do you find artificial intelligence and data mining fascinating? If so, mark your calendar for the 23rd International Symposium on Methodologies for Intelligent Systems (ISMIS) 2017, taking place in beautiful Warsaw, Poland from June 26th to June 29th, 2017. This is an event you simply cannot afford to miss!

The ISMIS event has a long history of bringing together leading experts, researchers, and scholars in the field of artificial intelligence. This year's symposium promises an exciting lineup of speakers, thought-provoking sessions, and innovative demonstrations that will leave you inspired and educated.

Discover the Latest Innovations in Artificial Intelligence

The ISMIS 2017 symposium is an opportunity for attendees to delve into the cutting-edge advancements in artificial intelligence. From machine learning to data mining, this event covers a wide range of topics that are reshaping the world we live in.

Lecture Notes in Artificial Intelligence 10352
Subseries of Lecture Notes in Computer Science
LNCS Series Editors
Randy Goebel
University of Alberta, Edmonton, Canada
Thomas G. Dietterich
University of California, Berkeley, CA, USA
Michael J. B. DeRoo
University of Twente, Enschede, The Netherlands
LNCS Founding Series Editor
Juris Hartmanis
University of Twente, Enschede, The Netherlands

Foundations of Intelligent Systems: 23rd International Symposium, ISMIS 2017, Warsaw, Poland, June 26-29, 2017, Proceedings (Lecture Notes in Computer Science Book 10352)

by Alessandro Manzoni(1st ed. 2017 Edition, Kindle Edition)

Screen Reader	: Supported

With over 3000 attendees expected, a diverse group of international experts will present their research, ideas, and breakthroughs. The symposium will also showcase real-world applications of AI, giving attendees a chance to see how these technologies can be implemented in various industries.

Keynote Speakers Pushing the Boundaries

ISMIS 2017 has lined up an impressive group of keynote speakers who are pushing the boundaries of artificial intelligence. These thought leaders will share their insights and experiences, providing invaluable knowledge and igniting new ideas.

One of the highlighted speakers is Dr. Yoshua Bengio, a renowned computer scientist and pioneer in deep learning. His groundbreaking work has contributed to the development of algorithms that enable computers to learn and make decisions autonomously. Attendees will have the privilege of hearing Dr. Bengio's thoughts on the future of AI and its potential impact on our society.

In addition to Dr. Bengio, ISMIS 2017 will feature other distinguished speakers like Dr. Fei-Fei Li, a leading expert in computer vision, and Dr. Andrew Ng, a co-founder of Coursera and an authority on machine learning.

Networking Opportunities and Collaborations

Attending ISMIS 2017 means joining a vibrant community of AI enthusiasts and like-minded professionals. Take advantage of the numerous networking breaks, receptions, and social events to connect with experts from around the world.

These interactions may lead to exciting collaborations and partnerships that can propel your career or research to new heights. The networking opportunities alone make ISMIS 2017 a worthwhile investment for anyone passionate about artificial intelligence.

Warsaw: A City of Beauty and Culture

Not only will you leave ISMIS 2017 with a wealth of knowledge, but you'll also have the chance to explore the remarkable city of Warsaw. As the capital of Poland, Warsaw is a vibrant hub of history, culture, and culinary delights.

Discover the rich heritage of the city by visiting iconic landmarks like the Royal Castle, Łazienki Park, and the historic Old Town. Immerse yourself in the local culture by sampling traditional Polish cuisine, attending live music performances, or exploring the immersive art scene.

With its warm and welcoming atmosphere, Warsaw is the perfect backdrop for ISMIS 2017. The city's charm and cultural offerings provide a unique experience for attendees to enjoy both during and after the symposium.

Don't Miss Out on ISMIS 2017!

The 23rd International Symposium on Methodologies for Intelligent Systems (ISMIS) 2017 is a must-attend event for anyone passionate about artificial intelligence. From the world-class speakers to the groundbreaking research and networking opportunities, this symposium has it all.

Block your calendar from June 26th to June 29th, 2017, and get ready to be inspired at ISMIS 2017 in Warsaw, Poland. Register now to secure your spot at this exciting event and be at the forefront of the AI revolution!

This book constitutes the proceedings of the 23rd International Symposium on Foundations of Intelligent Systems, ISMIS 2017, held in Warsaw, Poland, in June 2017. The 56 regular and 15 short papers presented in this volume were carefully reviewed and selected from 118 submissions. The papers include both theoretical and practical aspects of machine learning, data mining methods, deep learning, bioinformatics and health informatics, intelligent information systems, knowledge-based systems, mining temporal, spatial and spatio-temporal data, text and Web mining. In addition, four special sessions were organized; namely, Special Session on Big Data Analytics and Stream Data Mining, Special Session on Granular and Soft Clustering for Data Science, Special Session on Knowledge

Discovery with Formal Concept Analysis and Related Formalisms, and Special Session devoted to ISMIS 2017 Data Mining Competition on Trading Based on Recommendations, which was launched as a part of the conference.
