For more than 40 years, Peter Thody had harboured a dream of seeing wolves in their natural habitat, snarling and killing things like they do on Nat Geo. This is the diary of the whistlestop roadtrip he and his wife Carole took in March 2013 to make this dream come true.

Along the way they encounter charming Mormons, socially inadequate photographers and a wildlife spotter with a clear superiority complex. They ignore the advice of a park ranger and suffer for their arrogance, but take the advice of a snowmobile rental lady and live to fight another day. They are charmed by a hotel where guests are not permitted to use the elevator, but are less than impressed by a luxury spa destination.

This is a story of incredible natural beauty and unforgettable shared experiences, the diary of a trip that encompasses everything from beer, blizzards and the Butterface woman to Latter Day Saints and Lewis and Clark, where a particular day's experiences might be determined by the whim of the weather or the need to locate toilet facilities. It is also the story of a trip so badly planned that it began just as Yellowstone's roads were closing for the season.

Incredible though it may seem, Englishman Peter Thody is actually a seasoned roadtripper, having explored some of the USA's more remote corners over the last 10 years.

He is also a long time contributor to the RoadTrip America website, the leading source of advice and information for roadtrippers looking to discover the USA from behind the wheel of, well, the vehicle of their choice.

His RoadTrip America pen pic describes him thus: "An expert at finding and documenting the bits in between, Thody risks staying in cheap motels and making friends in the types of bars that his daughters would be horrified to know he frequents. Thody's award-winning photography and signature sense of humor make his articles among the most popular on RoadTripAmerica.com.

Yellowstone Roadtrip provides a British perspective of the archetypal American experience. It is honest, informative, and funny. Above all though, it conveys the author's deep love for this staggeringly beautiful part of the world.
