The Perfect Storm

The magic of storm surfing lies in the perfect convergence of nature's elements. A combination of powerful winds, swells, and tides create monstrous waves that test the limits of human courage and skill. It takes years of experience and an intuitive understanding of the ocean's moods to ride these behemoths successfully.

From Fear to Liberation

Imagine standing at the edge of the shore, staring at an incoming storm. The waves rise higher and higher, and fear crawls up your spine. Yet, it's in that moment of fear that the storm surfer finds liberation. With each paddle towards

the break, fear transforms into focus, exhilaration, and pure joy. It's a feeling like no other – being in perfect harmony with nature's wrath.

The Legends of the Storm

There have been many legendary storm surfers throughout history, each leaving an indelible mark on the sport. One such figure is Laird Hamilton, often considered the godfather of modern-day surfing. His courage and innovation in tackling massive waves have paved the way for a new generation of storm riders.

The Brotherhood of Storm Surfers

Storm surfing is not a solitary pursuit. It requires a team of like-minded, fearless individuals ready to face the tempest together. The brotherhood of storm surfers relies on trust and camaraderie to navigate dangerous conditions. Their shared experiences create unbreakable bonds, and their stories become the stuff of legends.

The Unpredictable Nature

One of the most fascinating aspects of storm surfing is the unpredictable nature of the conditions. No two waves are the same, and each storm presents its own unique set of challenges. It's a constant test of adaptability and quick thinking. Every storm surfer knows that even the best-laid plans can be torn apart by the whims of the ocean.

A Dance with Transcendence

Storm surfing is more than just a sport – it's a spiritual experience. In those fleeting moments when the surfer stands atop a towering wave, time seems to stand still. The world fades away, and the surfer is one with the elements. It's a dance with transcendence, where the boundaries between man and nature blur, and the surfer becomes part of something greater.

The Legacy of the Storm Surfer

The storm surfer's tale is one of resilience, determination, and unwavering passion. They push the boundaries of what is possible and inspire future generations to follow in their footsteps. Their legacy lives on in the stories shared around bonfires, in documentaries, and in the hearts of those who yearn for the thrill of riding the storm.

Storm surfing is not for everyone. It's a pursuit reserved for those with a hunger for adventure and a love for the untamed ocean. The storm surfer's tale is one of triumph over fear, an intimate connection with nature, and a profound respect for the forces that shape our world. So, the next time you witness a storm brewing on the horizon, remember the storm surfer – a brave individual who challenges the waves and rides the storm in a quest for that legendary wave.

The Surfing/Real Life Based Drama Book of the Year.

Life has its up's and down's; similar to the ocean, it has mostly calm days, but without any warning, an unexpected storm can roll in and destroy everything in its path. A Surfer's nature is to rise to the challenge and head directly into the storm to conquer its brutality. However, there comes a time when the storm pins the person underwater and has to fight for survival. Life can be symbolically compared to surfing as told in this story.

Steven is not average by any means and is exceedingly passionate about all aspects of life. At a young age, he grabbed a handful of E-tickets, jumped in the front seat and sped forward as his life became a thrilling roller coaster ride that never stops. He has seen the world through many eyes. First as an entrepreneur who was instrumental in changing the course of the music industry in the early 1980's. His daring ideas paved the way for a new era of music as the original

manager/co-creator of the iconic band Slayer. Years later, he became a world-renowned artist, and a champion in fiberglass warfare.

Steven is interviewed for a film documentary about his historic involvement in the music industry. He is asked, "If you can attribute one thing that makes you who you are and what has led you into achieving things that most could not even dream about or are too scared to attempt, what would it be?" Unexpectedly, he replies, "Surfing."

When the economy crashes in 2010, he, like so many others, quickly loses everything that he worked all his life to obtain, and rapidly loses many people he loves. His life goes into a downward spiral headed toward the pit of hell where there is no return. Nearing the point of giving up, Steven reaches deep into his soul in an attempt to reclaim what it was about his youth that made him into the man he became before life broke him into pieces.

Steven remembers his answer during the film interview and sits down at a computer to write his beginnings with the hope of finding himself again before it's too late.

Fast paced and masterfully written with two storylines running parallel to each other. The Storm is in the present (by Desiree Clemence) as Steven's life crumbles out of control, and the other, A Surfer's Tale, from the past, a classic surf story of youth, friendship, and love (by Steven Craig), both racing against time to meet for a climatic ending.

Real life stories from Surfers have mass appeal to the public whether they have set foot in the ocean or not. People don't need a connection or an interest in the sport of Surfing to get emotionally invested in this story of fighting for survival. Soul Surfer by Bethany Hamilton was the first in the set. Then came Making

Mavericks (Chasing Mavericks) by Frosty Hesson - both of which are best-selling books made into major motion pictures. Next in the lineup is Riding the Storm.

"A fun read that rides waves of emotion. Truly inspirational." - Amber Thorn

"What an enthralling adventure. Although I'm not a surfer or entrepreneur, the struggles in this novel tug at heartstrings I didn't even know I had. The drive and motivation found in every page seeps into my hands and begs me to get my own life started. Amazing, inspirational read." - Eliseo Velasquez
