

Techniques For Multi Color Patterns, Different Shapes, And Tapestry Weaving

Are you passionate about tapestry weaving but often find yourself stuck in the same old routines? If you're looking to elevate your skills and create stunning multi-color patterns and unique shapes, you've come to the right place. In this article, we'll explore various techniques that will help you take your tapestry weaving to a whole new level!

to Tapestry Weaving

Tapestry weaving is an ancient art form that involves creating intricate designs and patterns by weaving different colors of yarn into a fabric. The resulting tapestry can be used as a decorative wall hanging, a rug, or even a piece of clothing. The possibilities are truly endless!

While traditional tapestry often features simple geometric patterns and muted colors, modern tapestry artists have expanded the boundaries of this art form, introducing vibrant hues and complex designs. In this article, we'll focus on techniques that will help you achieve multi-color patterns and experiment with different shapes.

Choosing Your Colors

One of the key elements in creating multi-color patterns is selecting the right colors for your tapestry. Consider the mood and atmosphere you want to convey, and choose colors that complement each other well. You can opt for a harmonious color scheme, where all colors are similar in tone, or go for a contrasting scheme where opposite colors on the color wheel are used.

When choosing colors, pay attention to their saturation and value as well. Saturation refers to the intensity or purity of a color, while value refers to its brightness. Experiment with different combinations to see what works best for your desired outcome.

Techniques for Multi-Color Weaving

Now that you have your color palette ready, let's dive into the techniques for creating multi-color patterns in your tapestry.

1. Pick and Pick Technique

The pick and pick technique involves alternating between two or more colors in each row or pick of the weaving. This creates a checkerboard-like pattern and allows you to create intricate designs with multiple colors. Play around with the color sequence and spacing to achieve different effects.

2. Soumak Weaving

Soumak weaving is a technique that produces raised, textured patterns in your tapestry. By wrapping the weft yarn around the warp yarn, you can create beautiful shapes and lines. Experiment with different yarn thicknesses and colors to add depth and visual interest to your tapestry.

3. Rya Knots

Rya knots are a popular technique for adding texture and dimension to your tapestry. By tying small knots with bundles of yarn onto the warp, you can create a fluffy, shaggy effect. Use different colors and lengths of yarn to create unique shapes and patterns.

Exploring Different Shapes

Tapestry weaving is not limited to straight lines and squares. With a little creativity, you can create tapestries in various shapes and forms:

1. Triangles and Diamonds

Add a touch of geometric elegance to your tapestry by incorporating triangles and diamonds. Experiment with different color patterns and arrangements to create visually stunning designs.

2. Curves and Waves

Break away from traditional straight lines and create tapestries with curves and waves. This gives your artwork a more organic and flowing feel.

3. Abstract Shapes

Let your imagination run wild and create tapestries with abstract shapes. There are no limits when it comes to expressing your creativity!

Tapestry weaving is a versatile and artistic craft that allows you to explore various techniques, colors, and shapes. By incorporating multi-color patterns and experimenting with different forms, you can elevate your tapestry weaving to create truly unique and captivating pieces of art. So grab your loom, pick your color palette, and let your creativity flow!

Potholder looms can make so much more than potholders!

You can weave on these popular looms using the traditional loops or with nearly any yarn to make a variety of patterns, including Plain Weave, Twill, and Checkerboard. You can also weave shapes other than squares, such as rectangles and triangles. This variety of options means you can weave just the modules you need to make projects from wall hangings to place mats, runners, baskets, and more. Noreen teaches and explains each step of the techniques and projects in full detail, with photos, so even if you have never woven before, you'll easily be able to accomplish any project in this book.

Tapestry weaving is also fun on the potholder loom, and Noreen shows you how with detailed instructions for setting up your loom and working tapestry techniques. Start with the Tapestry Sampler and then try your hand at personalized wall dolls, colorful wall hangings, and decorative art pieces. All you need to know for successful weaving on your potholder loom is in this comprehensive book!

- 30+ projects for wall hangings, place mats, baskets, and more
- Weave with yarn or loops
- Instructions for the traditional 18 peg loom and also for 9 and 27 peg looms
