The story of Zionism, the Jewish movement of national liberation that led to the founding of modern Israel, is animated by leaders possessed with rare vision and political genius. It is also a story of tragedy, false dawns and suffering on an incomprehensible scale. Above all, it is a story without precedent, that saw an ancient, scattered, persecuted people who had limped from one disaster to the next, achieve a return to freedom in the lands of their ancestors nearly two millennia after their exile. In this extraordinary feat of narrative history, Alex Ryvchin tells the gripping story of Zionism, a movement that has become one of the most controversial and least understood political concepts of our time, one that remains central to modern Jewish identity and to war and peace in the Middle East.
