The Origins of the SAS

The Special Air Service was founded in July 1941 by Lieutenant David Stirling during World War II. With unconventional tactics and unconventional soldiers, the SAS was initially created to conduct desert raids behind enemy lines in North Africa. Little did they know that they were laying the foundations for an elite force that would thrive even in the most challenging and hostile environments across the globe.

The regiment has since expanded its reach and tackled numerous conflicts, including the Falklands War, Gulf War, and the War on Terror. Their prowess and effectiveness have earned them a reputation as one of the most formidable special forces units in the world.

From the bestselling author of The Real Bravo Two Zero comes the definitive history of the world's most elite fighting force - the SAS

'Breathtaking bravery, astonishing feats of endurance, raids and battles described with terrific immediacy and pace. Compelling and definitive . . . will surely not be bettered' Sunday Telegraph

On 4 May 1980, seven terrorists holding twenty-one people captive in the Iranian Embassy in London's Prince's Gate, executed their first hostage. They threatened to kill another hostage every thirty minutes until their demands were met. Minutes later, armed men in black overalls and balaclavas shimmied down the roof on ropes and burst in through windows and doors. In seconds all but one of the terrorists had been shot dead, the other captured.

For most people, this was their first acquaintance with a unit that was soon to become the ideal of modern military excellence - the Special Air Service regiment. Few realized that the SAS had been in existence for almost forty years, playing a discreet, if not secret, role almost everywhere Britain had fought since World War II, and had been the prototype of all modern special forces units throughout the world.

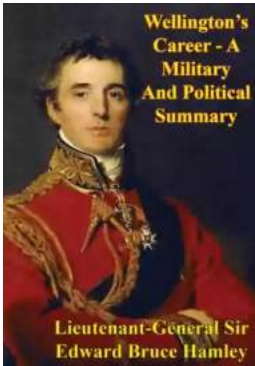

In *The Regiment*, Michael Asher - a former soldier in 23 SAS Regiment - examines the evolution of the special forces idea and investigates the real story behind the greatest military legend of the late twentieth century.

'Detailed, scathingly honest. Asher has brought the critical eye of the knowledgeable insider to his in-depth study of SAS operations and personalities'
Herald

Praise for Michael Asher:

'This is the most complete picture of the Sudanese campaigns that has yet been published . . . a vigorous and engrossing narrative' Philip Ziegler, Daily Telegraph

'A staggering achievement. Asher has delivered a scintillating tale of a period of history that deserves to be remembered' Guardian
