This is a special Kindle edition of the famous Arban's Complete Conservatory Method for Cornet or Trumpet. Our six-part edition for the Kindle has the most essential studies from the first six major sections of the original complete edition. Each exercise has been freshly notated (not scanned from the original book) and formatted to fit on the Kindle screen, tablet, iPad, smart phone, or Kindle App on your PC or Mac and be very legible.

This section of the Arban's focuses on technique, and we have omitted only a few of the studies from the original. Learning to play larger interval jumps and all the various finger patterns of Arban's rhythmic figures and arpeggios will help to improve your sight-reading and general comfort on the instrument. Learning the major, minor, dominant seventh and diminished seventh arpeggios in every key is also essential to jazz improvisation. We have added a bonus section for augmented arpeggios since they are also essential to jazz and do not appear in the original Arban's.
